OVERVIEW

Fresh Graduate in Digital Business (GPA 3.86/4.00) with hands-on experience in data analysis, digital infrastructure optimization, and IoT-based application development. Successfully secured national PKM funding (top 12% of 42.000 proposals) and delivered an RFID automation solution for 2.000+ merchandise items, reducing processing time by 75%. Proficient in Python, SQL, and BI tools, with a strong foundation in data-driven decision making and cross-functional collaboration.

EDUCATION

Universitas Negeri Jakarta 2022 – 2026
Bachelor degree in Digital Business | GPA: 3.86
Relevant Coursework: Data Analytics, Business Intelligence, Business Analysis

WORK EXPERIENCE

PT MRT Jakarta February 2025 – July 2025
Digital & IT Infrastructure Business | Internship

- Identified & optimized merchandise registration inefficiencies by developing an Android-based RFID application, reducing processing time by 75% and streamlining RFID-based merchandise registration and tagging for 2.000+ items.
- Analyzed monthly digital infrastructure data (TVM MyMRTJ Lite) using Python & Excel, generating business insights that supported the optimization of WhatsApp Ticketing Agent Services.
- Collaborated cross-functionally with multiple departments by documenting 10+ stakeholder meetings and MoMs, ensuring alignment and smooth execution of digital initiatives.
- Conducted UI/UX testing for MartiShop by MRT Jakarta (WhatsApp Agent & Microsite), translating user feedback into feature improvement proposals and succesfully onboarding 2 tenants.
- Managed vendor assessment processes for PPOB (Payment Point Online Banking) projects and supported technical audits for Telco partners.

PROJECT EXPERIENCE

Pekan Kreativitas Mahasiswa (PKM-KC) - Kemendikbudristek Maret 2023– Agustus 2023
IoT Product Development Project

- Secured national research funding for PKM-KC 2023 by proposing an IoT-based pet care innovation, selected among top 12% of 42.000 proposals nationwide.
- Let end-to-end product development using design thinking, integrating hardware & software components to deliver an MVP within 8 months, aligned with project milestones.
- Designed mobile applications UI/UX using Figma, delivering 7 functional screens and presenting the MVP to evaluators from Kemendikbudristek.

CERTIFICATION

- Associate Data Scientist (BNSP)
- Fast Track Data Analytics (Digital Skola)
- Data Scientist Path (Dicoding Indonesia)

KEY SKILLS

Data Visualization: PowerBI, Looker, Excel
Programming & Database: Python, SQL, R, ETL
Process Optimization: Business Automation (n8n)
Communication: Stakeholder Management, Team Collaboration

LANGUAGE

- Indonesia (Native)
- English (TOEFL ITP: 517)
